T. Morgan 2017

How to draw Deer with antlers

Start with a light outline in pencil. the head is like a teardrop upside down - narrow at the bottom and wide at the top.

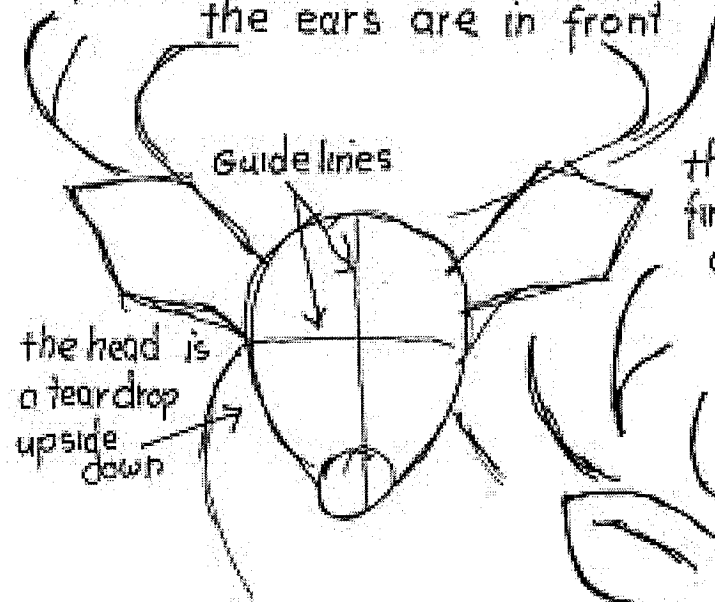

the ears are in front of the antlers. the ears look like spoons on the side of the head at the top.

the antlers go out and up. the first line is the bottom it is the longest at the tip is a "Y" shaped pair of points they are in front of the others.

the other points are in a row; two are right above the head.

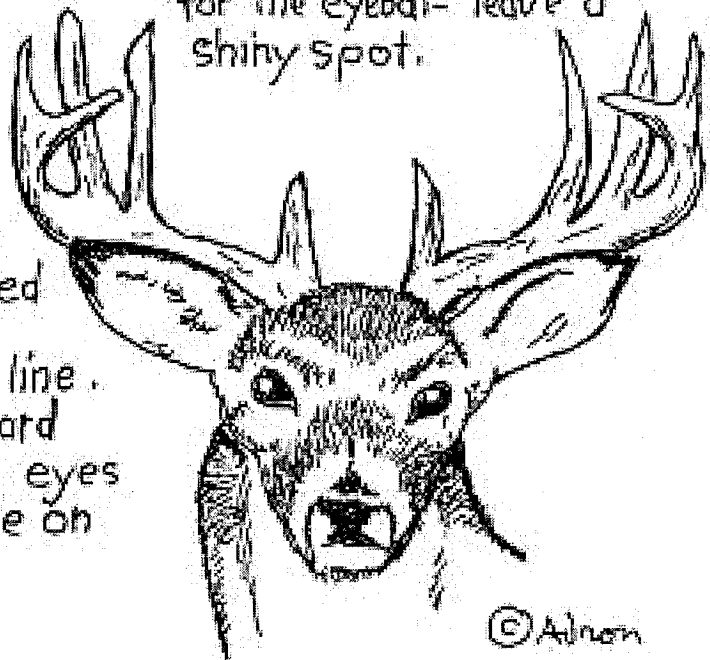

the head is a teardrop upside down

Guidelines

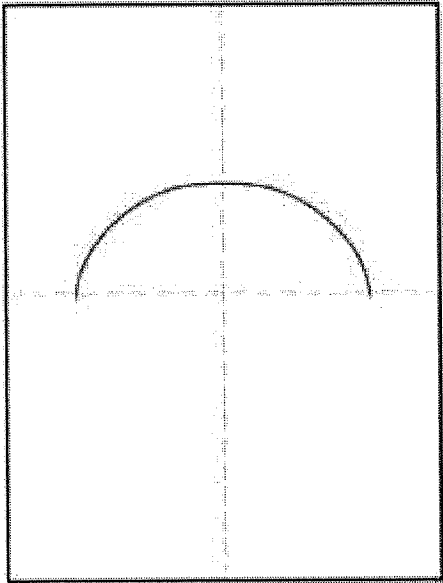

the eyes are a little higher than halfway from the bottom. the eyes are like two rainbow curves for the top and bottom eyelid, and a curve bowing outward for the eyebal- leave a shiny spot.

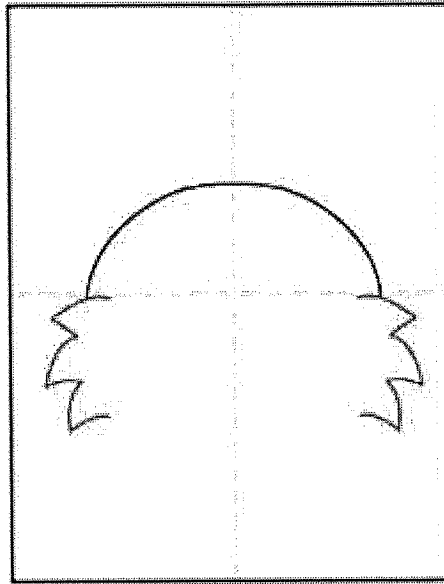

the nose is flat on the top and shaped like an hourglass. the mouth is a straight line. the fur goes up and outward there is white around the eyes and nose. there is white on his chest and throat.
