HOW TO DRAW THE QUEEN OF NABOO

1) Drawing lightly with a pencil, create a simple framework. Begin with an oval for her head and a curved "apple core" body shape. You can also add small circles on each side.

2) Draw a large oval around her head as well as a diamond/arrow shape for her headdress. Start filling in the basic shapes of her costume, such as the oval globes near the bottom of her dress, her big sleeves, and the wide "V" shapes in front.

3) Continue adding shapes, such as the sleeves and the lower ridge of the dress.

4) Add in those final costume lines, including the last details of her headdress.

5) Draw her face, along with the dots on her cheeks, and give her fingers some more detail. Keep in mind that part of her hands are covered by the sleeves.

6) At this point, you should have a fairly detailed pencil drawing. Once you're happy with how your masterpiece looks, you can go over your lines with pen or marker, or heavier pencil lines. You can color your drawing, too, if you prefer. It's completely up to you!
