Select one of the three portrait artist, Rembrandt, Kahlo, Van Gogh or choose and research your own self portrait artist that you gravitate towards. [Ten Masters of the Self Portrait](#) In complete sentences give me at least 3 things that you learned about the artist and their work.

#### Suggested guided questions:

- What do you think the artist is trying to say to the viewer?
- What clues tell us about the subject?
- What are the most distinctive qualities of the artists work?
- What do you sense of the artists personality through their self portraits?
- What connects you to the artwork? What do you like or dislike & why?
- What are three facts about the artist? Personality? Traits? Style?

### Activity #2: SELF PORTRAITS & PRACTICE DRAWINGS

Using a photograph or from life, recreate and draw a self portrait of yourself. This should be mainly your head and shoulders. Don't worry if you do not think you have the skills to draw.

This will be used as a gage to see how you improve over the quarter. All I ask is you try your best. You can add color and or shading. In the weeks to come I will be giving you guidelines and teaching you how to improve your drawing skills.

**Activity #3: Making your own template or using one of the two templates provided...make a face mask that represents YOU. Let your imagination take over. Use symbols, images, patterns that represent what makes you who you are under the mask that you wear.**
